**Revenue Increases 105.0%; Revenue Less Repair Payments

Over Corresponding Quarter in the Prior Fiscal Year**

**MUMBAI, INDIA, and NEW YORK, February 13, 2007** — WNS (Holdings) Limited (NYSE: WNS), a leading provider of offshore business process outsourcing (BPO) services, today announced strong results for the quarter ended December 31, 2006, and revised upward its guidance for the 2007 fiscal year.

“We continue to see many positive dynamics within the BPO industry which has resulted in the third consecutive quarter of exceptional revenue growth,” said Neeraj Bhargava, Group Chief Executive Officer. “We are ramping up client contracts more quickly than previously estimated, and accordingly have exceeded our internal expectations for third-quarter revenue growth and maintained our margins.”

During its previous earnings call held on November 15, 2006, WNS said it expected the third fiscal quarter to be a period of consolidation following two quarters of strong growth in fiscal 2007.

“The rate of growth of net income was lower than the rate of growth of revenue for the three months ended December 31, 2006, primarily because of \$2.4 million in deferred revenue recognized during the three months ended December 31, 2005,” said Zubin Dubash, Group Chief Financial Officer. “Quarterly net income growth would have been substantially higher, excluding the impact of such deferred revenue recognized during the three months ended December 31, 2005.”

## About Non-GAAP Financial Measures

For financial statement reporting purposes, the company has two reportable segments: WNS Global BPO and WNS Auto Claims BPO. In the auto claims segment, WNS provides claims-handling and accident-management services, in which it arranges for automobile repairs through a network of third-party repair centers. In its accident-management services, WNS acts as the principal in dealings with the third-party repair centers and clients.

---

The amounts invoiced to WNS clients for payments made by WNS to third-party repair centers are reported as revenue. As the company wholly subcontracts the repairs to the repair centers, it evaluates its financial performance based on revenue less repair payments to third party repair centers, which is a non-GAAP measure.

WNS believes revenue less repair payments reflects more accurately the value addition of the business process services it directly provides to its clients. The presentation of this non-GAAP information is not meant to be considered in isolation or as a substitute for the company's financial results prepared in accordance with U.S. GAAP. WNS revenue less repair payments may not be comparable to similarly titled measures reported by other companies due to potential differences in the method of calculation.
